## 1. Introduction

Samples were submitted for certification to STANDARD 100 by OEKO-TEX®. An application form was filled in by the client detailing the manufacturing processes, any chemicals involved in production and any necessary Health and Safety data.

This report relates only to the samples submitted and as described in this report.

## 2. Laboratory Investigation

The articles for certification are composed of fully pre-certified components to STANDARD 100 by OEKO-TEX® and therefore no testing is required
